PROFESSIONAL SUMMARY

Final-year B.Tech Computer Science & Engineering student with 8.66/10 CGPA and strong foundations in Java, Python, SQL, OOP, Data Structures, DBMS and software development. Hands-on experience building REST APIs, full-stack applications and AI-integrated solutions using Spring Boot, Flask, LangChain and Ollama. Experienced in debugging, problem solving, database design, API development and cloud deployment, with a strong interest in AI-assisted software development. Seeking opportunities to apply strong technical fundamentals, problem-solving skills and AI knowledge in real-world software engineering environments.

KEY EXPERTISE

Java Python SQL OOPs Operating Systems Computer Networking Spring Boot Flask REST APIs HTML
CSS Redis SQLite Generative AI LangChain Scikit-learn OCI AWS Fundamentals Render Git GitHub
Postman DBMS Data Structure and Data Structures & Algorithms

EDUCATION

Haldia Institute Of Technology B.Tech. - Computer Science & Engineering CGPA: 8.66 / 10	2023 - 2027
15721 DAV PUBLIC SCHOOL HALDIA PURBA MEDINIPUR WB, Haldia 12 th CBSE Percentage: 66.60 / 100	2023
15721 DAV PUBLIC SCHOOL HALDIA PURBA MEDINIPUR WB, Haldia 10 th CBSE Percentage: 92.20 / 100	2021

INTERNSHIPS

Haldia Petrochemicals Limited Chemicals / Petrochemicals / Polymer AI & Full-Stack Developer Intern Key Skills: Ollama LangChain MySQL Python Flask CSS System Design REST APIs Full-Stack Development HTML Problem Solving AI Generative AI - Built an AI-powered ticket management system with intelligent routing and workflow automation using Python, Flask, SQLite, Ollama and LangChain. - Integrated AI-based ticket analysis to automatically categorize and prioritize support tickets, reducing manual triage effort. - Implemented REST APIs, role-based access control and authentication, with a MySQL database schema for ticket records, user roles and workflow states. - Developed responsive admin and user dashboards using HTML, CSS and JavaScript, following modular architecture for maintainability and scalability. - Collaborated with mentors and cross-functional teams to debug, test and refine application features, strengthening software development and problem-solving practices.	05 May, 2026 - 30 Jun, 2026
---	-----------------------------

PROJECTS

SmartDeskAI-Enterprise Intelligent Ticket Management System. Key Skills: Python Flask SQLite REST API Design Generative AI Integration Ollama LLM Application Development Cloud Deployment (Render) Unicorn Project Link: https://github.com/codersoumyajit/smartdesk - Built an AI-powered helpdesk application using Python, Flask, LangChain and Ollama, with Google Gemini integration for production AI capabilities. - Implemented AI-based ticket categorization, prioritization and chatbot assistance to streamline support workflows. - Developed authentication, role-based access control and activity logging, and deployed the application on Render.	12 May, 2026 - 01 Jul, 2026
Fault-Tolerant API Rate Limiter (Token Bucket)	04 Mar, 2026 - 28 Jun, 2026

Key Skills: Java Spring Boot REST APIs Redis Cloud Docker Render Cloud

Project Link: <https://github.com/codersoumyajit/tokenbucket-project>

- Built a Spring Boot REST API implementing the Token Bucket algorithm to restrict users to 5 requests per minute and return HTTP 429 responses for excess requests.
- Designed a thread-safe in-memory fallback that automatically activates when Redis becomes unavailable, maintaining API availability without server errors.
- Implemented request interception with temporary bans, permanent blacklisting and token validation, and deployed the application on Render.

Customer Churn Analysis

27 Jun, 2025 - 15 Jul, 2025

Key Skills:

Python Data Analytics Machine Learning Random Forest Customer Churn Analysis Feature Engineering

Business Analytics GitHub

Project Link: https://github.com/codersoumyajit/Customer_churnAnalysis

- Analyzed 14,606 customer records with 63 features, performing feature engineering and preprocessing for churn prediction.
- Trained a Random Forest classification model achieving 91% accuracy and evaluated key factors contributing to customer churn.
- Proposed a CRM-integrated prediction workflow to support targeted customer retention strategies.

ACHIEVEMENTS

- Cognizant Technoverse Hackathon 2026 — Selected as a college representative; received Certificate of Appreciation.
- Achieved the Highest Tier in the Google Arcade Facilitator Program 2025, showing strong engagement with Google developer initiatives.
- Champion – Haldia Sanskritik Utsav 2025 — 1st Place, Fine Arts.
- Champion – Annual Cultural Meet 2024 — 1st Place, One-Act Play.
- National Player (U-19) in Kabaddi, representing West Bengal at DAV National Sports 2022–23 (School Games Federation of India), demonstrating teamwork and leadership.

ASSESSMENTS / CERTIFICATIONS

Database Management System
Provider: NPTEL (IIT Kharagpur | SWAYAM, Govt. of India)
Key Skills:

Database Management Systems SQL Relational Database Model ER Modeling ACID Properties Query Processing

Relational Algebra Database Design

Completed an 8-week NPTEL course on Database Management Systems covering relational models, SQL, normalization, transaction management, indexing, and query processing with proctored examination.

Oracle Cloud Infrastructure 2025 Certified Foundations Associate

28 Oct, 2027

Provider: ORACLE

Key Skills: Core OCI Services Cloud Computing

Earned the Oracle Cloud Infrastructure (OCI) 2025 Certified Foundations Associate certification, demonstrating a strong understanding of fundamental cloud computing concepts and Oracle Cloud Infrastructure services.

Machine Learning A-Z [2026]: ML, DL, AI with AWS, Python & R
Provider: Udemy
Key Skills:

Machine Learning Deep Learning Artificial Intelligence Natural Language Processing (NLP) TensorFlow Keras

Scikit-learn XGBoost Amazon Web Services (AWS) MLOps Cloud Computing CI/CD

Completed a comprehensive 49.5-hour Machine Learning A-Z course covering the full ML lifecycle in both Python and R. Gained hands-on experience with regression, classification, clustering, association rule learning, reinforcement learning, and NLP algorithms, along with deep learning (ANN, CNN) using TensorFlow/Keras. Also covered dimensionality reduction techniques (PCA, LDA) and advanced boosting methods (XGBoost, LightGBM, CatBoost). Additionally built practical skills in deploying and managing ML solutions on AWS, including data preprocessing with AWS Glue/SageMaker Data Wrangler, model training and deployment via Amazon SageMaker, CI/CD pipeline automation, containerization (ECR/ECS/EKS), and model monitoring/governance using SageMaker Clarify and Model Monitor.

Postman API Fundamental Student Expert
Provider: Postman

Key Skills:

- API
- Testing
- Scripting
- Authentication
- Data Handling
- API Chaining
- Variables and Environments
- Request Components
- Postman Proficiency

Certified Postman API Fundamentals Student Expert with a strong understanding of APIs and their role in modern software development. Skilled in using Postman to work with APIs, including making GET, POST, PATCH, and DELETE requests. Experienced with query parameters, request bodies, headers, response status codes, API key authorization, and basic scripting. Able to integrate and use APIs in applications, with a growing interest in backend development and system integrations.

Data Analytics with Python

Provider: NPTEL (IIT Roorkee | SWAYAM, Govt. of India)

Key Skills:

- Python
- Data Analytics
- Data Visualization
- Pandas
- NumPy
- Statistical Analysis
- Exploratory Data Analysis
- Data Cleaning
- Data Wrangling
- Machine Learning

Completed a 12-week certification course on "Data Analytics with Python" offered by IIT Roorkee under the NPTEL/SWAYAM initiative (funded by the Ministry of Education, Govt. of India), covering Jan–Apr 2026. Gained hands-on knowledge of using Python for data analysis, including data cleaning, exploratory data analysis, visualization, and statistical techniques using libraries such as Pandas and NumPy.

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate

18 Jun, 2028

Provider: ORACLE

Key Skills:

- Oracle Cloud Infrastructure (OCI)
- Artificial Intelligence
- Machine Learning Fundamentals
- Generative AI
- AI Services
- Cloud AI Architecture

Earned the Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate certification, showcasing foundational knowledge of AI and machine learning concepts, generative AI, and how these are implemented through OCI's AI services and infrastructure. Certification valid through June 18, 2028.

Full Stack Web Development With MERN Stack & GenAI 2026

Provider: Udemy

Key Skills:

- HTML5
- CSS3
- React JS
- Node.js
- MongoDB
- MERN Stack
- RESTful API Development
- Bootstrap
- React Query
- Socket.IO
- Git
- GitHub
- Generative AI (GenAI)
- Full Stack Web Development

Completed Full Stack Web Development course covering the complete MERN stack (MongoDB, Express.js, React.js, Node.js) integrated with modern Generative AI tools.

POSITIONS OF RESPONSIBILITY

Design Head - Eklavya (Social & Animal Welfare Community)

As the Design Head of Eklavya, I lead the visual identity of the club by creating impactful social media graphics, banners, and flyers that drive engagement and support our outreach initiatives.

Former Design Lead, GDG on Campus HIT

I led a team of designers to deliver impactful branding and creative assets while collaborating with cross-functional teams to enhance community engagement.
